Tijeems is a multi-functional company providing services across the building design and construction management value chain

We work collaboratively with clients to create structures that function efficiently on every level. We deliver across our varied customer segments with consistently high standards of service

Our core strength is our ability to harness the collective team's creativity and proficiency to develop solutions in line with the requirements of the client

To cultivate long lasting relationships with our clients by becoming a leading construction company through our consistent execution and technical expertise

To deliver world-class construction projects while providing an engaging customer experience

SERVICES

Tijeems as a company reflects our collective knowledge of the built environment and our understanding of how people utilize their commercial, residential and leisure spaces

Construction Management

Translate your scope from drawings to actual structures delivered on time and within budget

Design-Build

Streamline your projects with design-build services from a single source

Consulting

Receive integrated project advice from our multidisciplinary team of experts

Interior Design

Collaborate with our range of creative minds, from the minimalist to the audacious

Surveying

Leverage our advanced GIS techniques and high-precision instruments for accurate surveys

PROJECTS

Our project types range from single- & multi-unit residential, to small- & large-scale commercial, industrial and public/institutional developments

TEAM

We maintain an impressive line-up of skilled tradesmen as well as experienced architects and engineers, with most of them certified by numerous architectural and engineering governing bodies

We foster a high-level of multidisciplinary thinking, allowing our various teams to assess situations from different perspectives and identify opportunities for constant improvement

TESTIMONIALS

“The Interior Finishing was so exquisite that I had to confirm we were still in my building.”

“It’s a relief to find contractors who can still deliver on time as promised.”

“I honestly didn’t expect to get this high level of quality...considering the budget I had available.”

“One of the few great construction firms I’ve done business with.”
